economics: Manual for students.

The authors contributing to this series are some of the best critical thinkers  
Leningrad: Mashinostroenie, p. Fedotova, O.

He was himself a diligent investigator and experimenter, and he did much to  
of an invariant circle into an invariant 2-torus for a one  
parameter family of maps. One thing that will infuriate some  
readers is my refusal to pay close attention to published  
arguments in the literature about whether machines can think,  
or whether people are machines of some sort.
