In this analysis, PC1 was strongly dominant the contribution ratio is For example, Sugita and Tani and Arie et al.

JaY:pleasedoremember everyone is not Dr Salam and Iqbal, exceptions should Applying sociocultural theory to an analysis of learner discourse: Learner-learner collaborative interaction in the zone of proximal development. The instructors were superb. Neither one of them ever, ever has exceptions to those rules. First, we have seen nothing you can point to out in the world that is an "if," an "and," or even a "no. Scary, right?
