Birds with large testicles tend to live in colonies where the females have ample opportunity for adultery. Instruction in coevolution can thus work to dispel the misconception that evolution acts only over long time-scales in response to abiotic changes, such as glaciation. It is also helpful for host and parasite decks to be distinct in some way e.

Distribution:Foreign-MarketEntry. Have one to sell? Parasites thereby exert negative frequency-dependent selection on their hosts, with the most common host genotypes having low fitness and declining in frequency as parasites infect .
